What we're looking for:

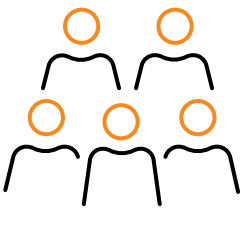

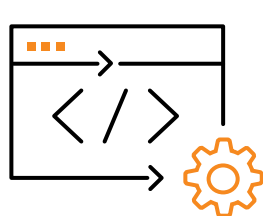

You don't need years of experience — we value curiosity, logic, and motivation.

Required:

- Basic knowledge of **databases / SQL**, understanding the idea of transactional systems;
- Understanding of transactional systems (basic concept level);
- Analytical thinking and attention to detail;
- Good organizational skills and ability to prioritize tasks;
- Respect for deadlines and quality of work;
- Willingness to learn quickly and adapt;
- Enjoy communicating with colleagues and clients;
- Good English — written and spoken.

Nice to have (but not mandatory):

- Experience with **BI** tools;
- Personal or university projects involving data;
- Interest in business processes or analytics.

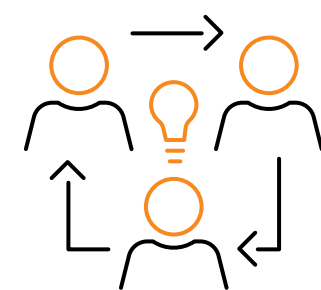

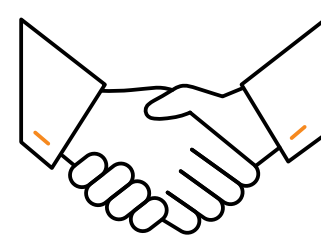

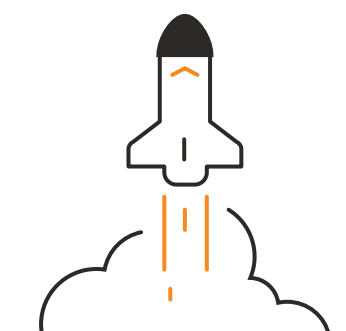

What you'll get:

We believe careers are built with opportunity, support, and trust.

We offer:

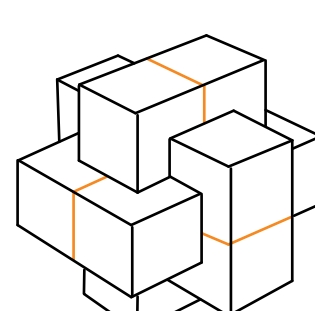

- A strong **entry point into the world of Business Intelligence**;
- Training in business, finance, and real-world company processes;
- Hands-on experience with leading **BI** technologies;
- Exposure to business models from successful companies;
- A stable company environment with long-term career growth;
- Professional and personal development opportunities;
- Freedom to share ideas and contribute solutions;
- Competitive salary;
- Supportive team environment.
