

If you are looking for a meaningful change in your life

we may have the right opportunity for you!

Balkan Services is an IT consulting company helping organizations to nail the right software solution for their growing business and implement it in the fastest, most efficient, and smooth way.

In relation to new projects and increased work volume, our team is growing.

We are looking for:

Technical Business Consultant

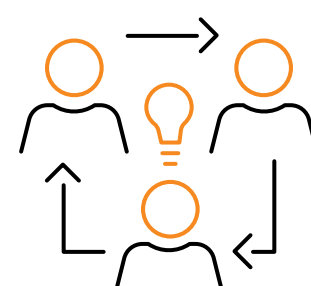

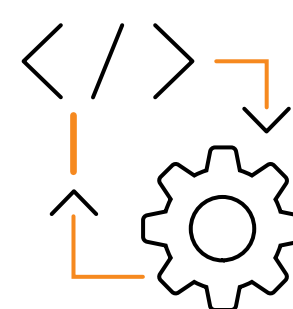

Why Balkan Services?

Because at Balkan Services we always give our best, we strive to exceed our clients' expectations and our own. We work in the field of technology, driven by the understanding that we work with people for people. Our dream is to make every project and the Balkan Services brand a benchmark for world-class quality.

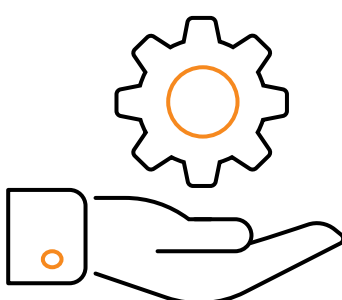

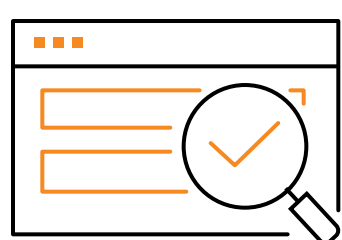

Our team is made up of exceptional people with deep expertise, united by shared values and the desire to make their personal contribution. We believe in each other, support each other and share knowledge and experience. We are convinced that every adventure begins with an urge to change and a desire to challenge yourself. We know that we only go far when we walk together and have the freedom to be ourselves.

At Balkan Services, we choose to be surrounded by smart, motivated, and proactive individuals who love their job and see meaning in it. We believe that happiness is directly linked to productivity, and we create an environment with a good work-life balance.

By joining our dynamic and close-knit team, you can translate your ideas into practical business solutions and participate in diverse and challenging projects for leading companies. If you want to work in a friendly atmosphere where responsiveness, openness and laughter are valued, you'll feel right at home with us!

What is the job of a Technical Business Consultant?

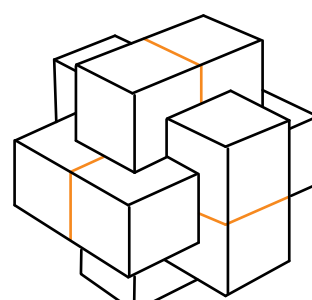

The Technical Business Consultant is interested in business processes from a technical point of view and loves the technology side of business software.

Strengths: working with ERP systems, scripts, modules and features, knowing how to make different systems talk to each other. Takes pride that these solutions can benefit a business for many years. Applies his/her own knowledge and skills to improve customer processes today, not in the distant future. Has good command of English and excellent working knowledge in databases and Java Script.

If you think this environment and position are for you send us your CV to jobs@balkanservices.com

The first part of our recruitment process is a task that we will send to approved candidates.

The second round of the selection process is an interview to which we will invite the candidates who have been successful at the first stage.
