

## If you are looking for a new way to challenge yourself

### we may have the right opportunity for you!

Balkan Services is an IT consulting company helping organizations to nail the right software solution for their growing business and implement it in the fastest, most efficient, and smooth way.

In relation to new projects and increased work volume, our team is growing.

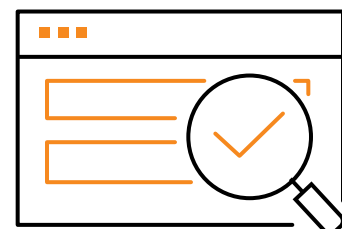

**We are looking for:**

### **Business system implementation specialist**

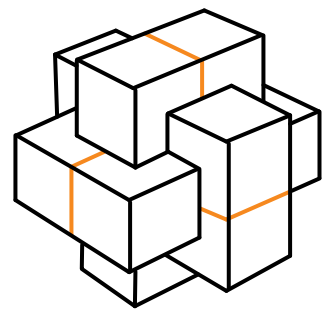

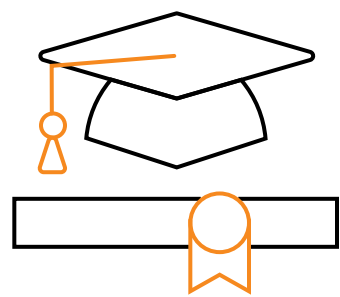

#### What are you going to do:

- Participate in all phases of the implementation of an Enterprise Resource Planning (ERP) solution - analysis, implementation, and support.
- You will actively communicate with customers/users of the system during implementation and subsequent case resolution and training.
- Work actively with a team of consultants, specialists in various fields - business, finance, technical and project management.
- Continually develop your knowledge and skills in relation to the software product, business processes and best practices and working standards that lead to meeting the needs of the company's customers.

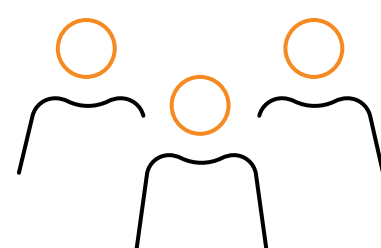

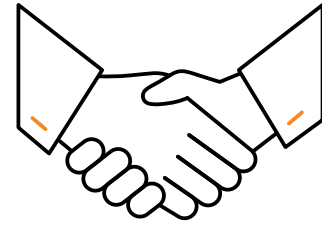

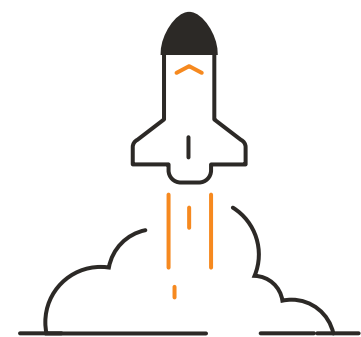

#### This role is right for you if:

- You have more than 10+ years of professional experience and are looking for career development and change.
- You have worked with an ERP solution or other business software and want to deepen your knowledge of how a company works and what its processes are - sales, warehouse, production, accounting, etc.
- You are proactive, organized and can prioritize tasks and communicate them with others to get results.
- You want to work on varied and challenging projects for leading companies in different industries.
- You are eager to be of service to your clients and you are a team player who can communicate and explain new ideas and concepts in an understandable way.
- You are interested in exploring a complex enterprise resource planning (ERP) software product.
- You are willing to work in a friendly atmosphere where approachability, openness and laughter are valued.
- You are a fast learner, an analytical thinker, accountable for the quality of your work and able to deliver results on time.
- You are fluent in English and MS Office.
- You have knowledge of Oracle Database, MSSQL Server, JavaScript.

#### The benefits are:

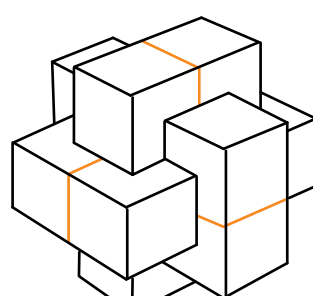

- Further development of your career in a promising IT profession.
- Opportunity to learn and contribute in a supportive environment with a great team.
- Access to business models of successful companies in different industries.
- The opportunity to solve interesting and forward-looking case studies.
- Work in a stable, growing company in the IT industry.
- Attractive benefits package.
- Work in the heart of Sofia.
