

Microsoft 365

The Office you know...

At its heart is Office itself – you and your employees receive the latest version of the familiar Office applications which you use every day doing business – Word, Excel, PowerPoint, Outlook, OneNote

...plus great enterprise-grade cloud services

Unlike the traditional Microsoft Office installation, Microsoft 365 will allow you to use:

Business-class email

Email hosting with large mailbox – 50 GB, with contacts shared calendars, and spam and malware protection that stays up to date. Use your own custom domain for your professional email address, connect with Outlook for fully featured offline support, and access email via any modern web browser. Available on your PC or Mac, as well as Windows Phone, iPhone, Android.

Online video and conference meetings

Hold scheduled or ad hoc online meetings for up to 250 participants, with screen sharing, audio and video, virtual whiteboards, polls, and shared notes. Partners and customers can fully participate through any HTML5 browser.

Online document storage and file sharing

Get 1TB of space in the cloud to store, backup and easily share files. Files are accessible from almost any device, also synchronized offline and available without an internet connection.

Team collaboration

Communicate through threaded and persistent chat and keep everyone in the know. Initiate a private or group chat, share files or co-author content.

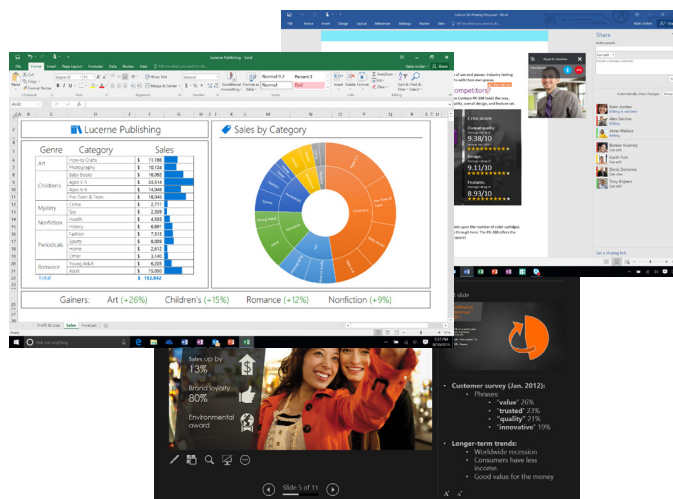

Microsoft 365 gives you the right tools to...

Get more done

You could be more flexible and productive using Microsoft 365 tools and services almost on any device – one license covers 5 phones, 5 tablets, and 5 PCs or Macs per user.

Work better together

Microsoft 365 offers business-class email, shared calendars, IM, web conferencing, and access to the most up-to-date documents stored in the cloud. You can work securely together in real time thanks to technology based on industry-leading data-trust policies.

Build your business

Establish a professional online presence, quickly and easily. Use the same domain name that you choose for your website with your email accounts.

Safeguard your data

Control and manage access to your sensitive business information. Protect company data across PCs and phones. Guard against unsafe attachments, suspicious links, and other cyber threats.

...transform your business

Reduce your capital expenditure

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense.

Cut hardware and energy costs

Without servers to run for email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Be always up to date

Since Microsoft 365 is in the cloud, it is always up to date. No patches or software upgrades necessary. Microsoft is adding new value and capabilities on a monthly basis.

Scale your business quickly

Microsoft 365 grows with you. Adding a new user is as simple as buying an additional license.

License per user

Simplify licensing while providing each user access to business-critical technology on 5 phones, 5 tablets, and 5 PCs or Macs. Save money when compared to traditional, per device licensing.

License what you need

Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.
